## What is Global GreenTag?

Global GreenTag is one of the world's most robust, trusted, and widely recognised eco-labels. They independently assure that every product is fitness tested and certified under their leading certification programs that use the world's best scientific methods.

Enzyme Wizard achieved the highest level of GreenTag accreditation – PLATINUM & HEALTH RATE - PLATINUM.

## Why is the Global GreenTag certification important?

Enzyme Wizard has joined a growing list of leading manufacturers dedicated to the business of creating healthy and sustainable products and who submit their product claims to undergo robust, third-party product certification with Global GreenTag.

Having this third-party verification backs up Enzyme Wizard's claims that they have Australia's #1 safest and most environmentally friendly cleaning products.

In Australia, Global GreenTag HealthRATE is recognised, under the Green Building Council of Australia (GBCA) Green Star® Tools, while globally (including Australia) the GreenTag PHD & HealthRATE together are formally recognised by the International WELL™ Building Institute. The WELL™ Building Standard is concerned with the impact health and well-being of buildings and therefore required products to be certified healthy. WELL Projects are in 112 countries.
