The human side of cleaning

TSM

GRANDE BRIO 35B

Professional in every way.

Even small spaces present challenges when it comes to their cleaning; in fact, obstacles and impediments make it difficult to reach all surfaces with the same level of effectiveness. In environments such as professional offices, where dirt is stubborn and the space reduced, the manual tools that we have always had aren't helpful to achieve the desired outcome.

Grande Brio 35B is the perfect scrubber dryer for cleaning surfaces up to 1050 m²/h, which allows you to get professional results quickly. The 35B is battery operated, which guarantees an autonomy of use of more than 1 hour.

Applications

PROFESSIONAL CLEANING	● ● ● ● ●
RETAIL	● ● ● ● ●
INDUSTRIAL SECTOR	● ● ● ● ●
HEALTH	● ● ● ● ●
PUBLIC	● ● ● ● ○

WELLNESS AND SPORTS	● ● ● ● ●
TOURISM	● ● ● ● ●
HO.RE.CA	● ● ● ● ●
AUTOMOTIVE	● ● ● ● ○
TRANSPORT	● ● ○ ○ ○

Easy to use right from the start.

Located on the handlebar, the 35B's controls are intuitive, with only two buttons you can activate the vacuum motor and brush. The double-grip handlebar allows you to move the machine in a practical way from one room to another, while, thanks to the large wheels with which it is equipped, you can easily climb steps and take it to different floors of a building.

HOW IT WORKS

Simple controls

Always ready for use, only two buttons (On/Off) positioned on the handlebar.

Ergonomic grip

Made in anti-slip rubber with built-in buttons.

On board charger

Integrated into the machine, it indicates the battery charge status at all times.

Adjustable handle

Even in operation, it allows you greater maneuverability along walls and corners

Water tank

Equipped with handle to facilitate gripping and emptying.

Non marking wheels

Don't leave marks on the floor, even if wet.

Hidden corners no longer exist.

The 35B scrubbing deck is side-mounted in order to allow you to clean perfectly even along the walls and under the furniture. The whole surface of the room, including corners, is thus cleaned and sanitised.

TECHNICAL DATA GRANDE BRIO 35B

Scrubbing path	mm	350
Tanks capacity	l	16/18
Coverage performance	m ² /h	1050
Working time	h	> 1h 20mins
Brush size	mm	1 x 350
Rpm brush	rpm	170
Brush pressure	kg	28
Brushes motor power	W	1 x 250
Squeegee width	mm	420
Water lift	mm H ₂ O	540
Vacuum motor (stages)	W	250 (2)
Voltage	V	12
Total power	W	450
Integrated battery charger	A/h	8
Max battery capacity (Agm)	Ah/5	(65)
Maximum gradient	%	2
Noise level	dB(A)	< 66
Machine dimensions (L x l x h)	mm	720x490x645
Weight without battery	kg	40

Scrubbing pressure

The unit cleans with 28kg of constant pressure on the floor

SCRUBBING PATH
35cm

TANKS CAPACITY
16/18 l

COVERAGE PERFORMANCE
1050 m²/h

Brush fixing

It's installed and removed without using your hands.

WORKING TIME
> 1h 20min

Cleaning thoroughly doesn't mean making noise.

In many environments, such as hospitals, nursing homes and schools, it's fundamental to maintain peace and quiet. Professionals who work there are asked to limit as much as possible the noise that can affect the rest and concentration of others. The brush and vacuum motor of the 35B are well soundproofed to minimise the noises generated by the cleaning operation.

The inclination is up to you.

With such a diversified adjustment of the handlebar, the parking of the machine is less cumbersome; you can in fact close the handlebar above the tank and transport the 35B comfortably in the trunk of a small car.

Let yourself be carried by your needs.

You can choose which type of brush to use: those made of PPL with bristles of varying thickness or, for more resistant surfaces you can opt for a Tynex brush with steel bristles. There is a wide selection, even if you prefer to use the pad: a soft version with a polishing effect, through to the more robust pad for routine maintenance and, the more aggressive version to guarantee deeper cleaning.

Record pit stop.

All parts that require daily maintenance have been designed to be easily accessible and quick to clean. The brush can be removed by pressing the appropriate button, while no tools are needed to check and remove the squeegee and water filter.
